

The Department of Statistics and Operations Research of the University of Santiago de Compostela will host the V International Workshop on Spatio-Temporal Modelling (METMAV) from 30th June to 2nd July 2010. The purpose of this workshop is to promote the development and application of spatio-temporal statistical methods in different fields related to Environmental Sciences.

This workshop has been organized over the last decade by different Spanish research groups. Previous meetings were celebrated in [Benicassim](#) (2001), [Granada](#) (2004), [Pamplona](#) (2006) and [Alghero](#) (2008, Italy), and both the workshop participation and the scientific quality of the contributions have grown substantially since the first one. As for the previous editions, a special issue of [Environmetrics](#) will be edited for the conference papers, following the usual reviewing procedure. Another Special Issue of [Journal of Environmental Statistics](#) will be devoted to the conference contributions.

METMAV is a satellite conference of [TIES](#).

METMAV will be held in [Santiago de Compostela](#) (Galicia, Spain), declared a World Heritage City by UNESCO thanks to its multicultural nature and as the final destination of a thousand-year-old pilgrim route: the Way of St. James, which, since the 9th century, has transformed this finis terrae into a meeting place of Western faith and thinking.

Information for participants: a [Workshop on Strategic Data Analysis](#) will be held on 29/06/2010, in the same venue. This workshop is organized by the Nodo CESGA of Ingenio MATHEMATICA (i-MATH) project and the Department of Statistics and Operations Research (University of Santiago de Compostela).

The Organizing Committee would like to thank the Sociedade Galega para a Promoción da Estatística e da Investigación de Operacións ([SGAPEIO](#)), the Sociedad de Estadística e Investigación Operativa ([SEIO](#)), the

[IAP network](#)

and

[Ingenio MATHEMATICA \(i-MATH\)](#)

for supporting the METMAV.

We are looking forward to seeing you here, enjoying the conference and the city!

The Organizing Committee
