

Workshop

Statistical models specification under a kernel-based approach

Horario	Relator	Contribución oral
10:00-11:00	Pedro Galeano Universidad Carlos III de Madrid	A generalized distance covariance approach for testing linearity and independence in scalar-on-function regression with missing at random responses
11:00-11:30	Coffee break	
11:30-12:00	María Vidal García Universidade de Santiago de Compostela	A kernel-based specification test for the regression function
12:00-12:30	Laura Freijeiro González Universidad de Oviedo	New proposals of specification tests for synchronous and asynchronous functional concurrent models
12:30-13:00	Daniel Diz Castro Universidade de Santiago de Compostela	A new model-free covariate significance test for weak dependent data

Data: 21 de marzo 2025

Lugar: Salón de Graos. Facultade de Matemáticas (USC)
